

Dear Hiring Manager,

I am writing to express my strong interest in the Financial Analyst position.

Currently working as a Financial Auditor at PwC and holding a Master's degree in Finance from the University of Lorraine, I have developed solid expertise in financial analysis, reporting, internal controls and business performance assessment. My professional experience has enabled me to work with financial statements, evaluate accounting processes, analyze financial data and contribute to the delivery of reliable information used in decision-making.

Throughout my audit assignments, I have strengthened my analytical and quantitative skills while working on various financial cycles, including treasury, sales, purchases and equity. These experiences have allowed me to develop a strong attention to detail, a rigorous approach to data analysis and the ability to identify financial risks and opportunities.

In addition, I am comfortable working with analytical tools such as Excel, Power BI and SQL, which I use to process, analyze and present financial information efficiently. I particularly enjoy transforming complex financial data into clear and actionable insights that support business strategy and operational performance.

I am highly motivated to join your organization and contribute to financial planning, reporting and strategic decision-making. I am confident that my analytical mindset, financial background and commitment to excellence would allow me to make a valuable contribution to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience align with your needs.

Yours sincerely,

Khawla El Moukri
